About Me

I'm a Physics Graduate and a self taught web developer. I'm seeking to work in a company that provides an opportunity to expand my knowledge, skills, and soft skills in the Web Development field. I hope to gain experience and to contribute to both the company's growth, and my personal growth.

Education

2015-2019   **University Tunku Abdul Rahman**

Bachelor of Science (Honours) Physics

Projects

Weather JS

tcy-weatherjs.herokuapp.com

A weather app built with vanilla JavaScript. It provides information such as temperature, weather condition, weather forecast and history, and also local time of the searched city.

Portfolio V1

tancheanyong.github.io/portfolio-v1

My portfolio where I showcased more projects, it is built using ReactJS.

Certificates

- Responsive Web Design from FreeCodeCamp.org
- JavaScript Algorithm and Data Structure from FreeCodeCamp.org
